Simplify Reconciliation

ACI's integrated treasury management makes it easier to manage card processor relationships — including interchange management — by removing the risks, uncertainties and complexities inherent with most in-house systems. Part of the ACI Speedpay[®] solutions, integrated treasury management frees you from the difficulties of managing payments, and takes over all processor relationships and covers all transaction costs for a set, predictable price.

The Market Challenge

Accepting payments keeps getting harder. Trying to reconcile payments from multiple sources made over different days eats up staff time. In response, companies increasingly outsource the management of merchant acquirers and ACH payments.

Making Payments Funding Easier

- · Provides a single source of funding for your payments
- Eliminates multiple deposits from processors
- · Provides a single source of funding for your payments

Eliminates Reconciliation Complexities and Hassle

- Receive a data file containing all the payments for that day that will match the dollar amount of the deposit
- No more multiple data sources or complex cross checking to reconcile

The End of Complicated Processor Relationships

- Since ACI's experts continuously monitor rate qualification, you receive the best interchange rates available
- Receive a data file containing all the payments for that day that will match the dollar amount of the deposit
